

# PROOF OF VACCINATION REQUIREMENTS

Per the City of San Francisco mandate that went into effect on Friday, August 20, 2021, all individuals 12 and older must provide proof of full vaccination to attend indoor events at our facilities. You will still need to wear a mask, even if you are vaccinated. Full vaccination is defined as 2 weeks (14 days) post the final dose of your chosen COVID-19 vaccine. Failure to provide proof will result in denied access into the venue. To help you prepare for check-in validation we have outlined the accepted forms ID & Proof of Vaccination with links below:

All Guests in attendance will need to supply 1 form of government issued photo ID. This can be a State issued Drivers License or ID, Passport or Passport Card or Military ID. This is to validate identity and must match the name on the approved proof of vaccination.

You can show your Vaccination Record Card (CRC) from the CDC as pictured above. Or you can show an image of the card, if you have a picture on your phone. Or you can use a [digital COVID-19 vaccine record issued by the State of California](#). You can also use an [approved private app](#) to verify your vaccination status. If you don't have your card, [find out other ways to verify you have been vaccinated](#).

Do you have a qualifying exemption? If so, you are still required to provide a photo ID in addition to a hard copy of the one of the following:

- Signed Self-attestation of Religious Exemption (self-attestation of vaccination do not apply).
- An official and approved Medical Exemption provided by a Doctor.
